Gentlemen:

**Bradenhead test which was conducted on your #1 Newberry
Federal well located in Unit M, Section 17-31N-12W
indicates production casing failure in this well.**

**You are, therefore, directed to take immediate remedial
action to repair the casing in this well. Prior to
commencement of operations, Form C-102 indicating your plan
of action should be filed in triplicate in this office.**

Yours very truly

Emery C. Arnold

Southwest Production Company
 3100 Continental Center
 Dallas, Texas

Dear Sirs:

Enclosed for your information are two copies of a letterhead memorandum dated and captioned as above. This memorandum was received from the Texas Department of Conservation, Division of Oil Conservation, on September 29, 1964. It relates to the operations of the 3100 Continental Center well located in Unit W, Section 18-31N-12E, T10S, R12E, N21E, indicating your plan indicates production casing failure in this well.

You are, therefore, directed to take immediate remedial action to repair the casing in this well. Prior to commencement of operations, Form O-102 indicating your plan of action should be filed in triplicate in this office.

Very truly yours,

James C. Arnold
 Supervisor, District #3
