LOG OF OIL OR GAS WELL

The information shown here is a complete and correct record of the well and its work from the time it was first drilled to the time it was last worked. It is the responsibility of the person who logs the well to see that the record is complete and correct. The log should be made in ink on this form and should be signed by the person who logs the well. The log should be made in ink on this form and should be signed by the person who logs the well.

OIL OR GAS SANDS OR ROCKS

(Name of rock)

No. 1 from _____ to _____
No. 2 from _____ to _____
No. 3 from _____ to _____

IMPORTANT WATER SANDS

pumping equipment.

and pumping 100 bbls of new oil and casing be pumped off with present lease and 30,000 gal of 20-40 sand at 48 bps. Well was put on pump 1955. Rigged up to set casing and first well on January 9, 1957. Well moved back on this hole which had been temporarily abandoned since Dec. 1955. Rigged up to set casing and first well on January 9, 1957. Well moved back on this hole which had been temporarily abandoned since Dec. 1955.

It is of the greatest importance to have a complete history of the well. Please state in detail the dates of redrilling, together with the reasons for the work, and its results. If there were any changes made in the casing, state fully, and if any casing was sidetracked or left in the well, give its size and location. If the well has been dynamited, give date, size, position, and number of shots. If plugs or bridges were put in to test for water, state kind of material used, position, and results of pumping or bailing.
