Van Thompson
Southern Union Gas Co.
Burt Building
Dallas, Texas

Dear Mr. Thompson:

Mr. J. F. Ridenour was in our office today inquiring about production on a well in Section 18-31N-10W, which our records show to be Southern Union Gas Co.'s Beaver Lodge #1 McCoy Unit. Mr. Ridenour originally leased to the Stanolind Oil & Gas Co. along with several other landowners, and their acreage was evidently communitized with some Southern Union acreage to make a drilling unit. Our records show this well was completed in June, 1952 and to date we have not received a Form C-104 on this well and if it has been producing we have not received a copy of the "Operator's Monthly Report" showing production. Also the well does not appear on the Monthly Statistical Record put out by the Oil Conservation Commission; however Mr. Ridenour states that at least some of the landowners in this unit have received royalty checks.

Will you please write us a letter stating the date this well was hooked into the pipe line and the accumulative production.

We are also enclosing a memorandum pertaining to submittal of forms and the distribution of same.

Yours very truly,

Emery C. Arnold
Oil & Gas Inspector

Dear Mr. Thompson:

Mr. J. I. Ridenour was in our office today indicating about production on a well in Section 18-31N-10W, which our records show to be Southern Union Gas Co.'s Beaver Lodge #1 McCoy Unit. Mr. Ridenour originally leased to the Standard Oil & Gas Co. along with several other landowners, and their acreage was evidently commingled with some Standard Oil's acreage to make a drilling unit. Our records show this well was completed in 1928 and to date we have not received a copy of the "Operator's Monthly Reporting Production." Also the well does not appear on the Monthly Statistical Record put out by the Oil Conservation Commission; however Mr. Ridenour states that at least some of the landowners in this unit have received royalty checks.

Will you please write us a letter stating the date this well was hooked into the pipe line and the approximate production.

We are also enclosing a memorandum pertaining to an initial oil lease and the location of same.

Yours very truly,

Henry C. Arnold
Oil & Gas Inspector
