*Century Drilling Company
Box 168
Farmington, New Mexico*

Gentlemen:

We have received two copies of Federal Notice of Intention to Drill, along with Form C-128 covering your #1 Elliott well located in the NW¹ Section 18-31N-13W.

You have not indicated on the Notice of Intention to Drill what the casing and cementing program will be if production is obtained. Therefore, prior to completion of this well in any formation please submit for approval a casing and cementing program.

We also note that the well apparently is located on a non-standard location because of irregularity in the Public Land Survey. You have also not indicated which half-section would be dedicated in the event of Dakota gas production or how much acreage is contained in any of the acreage in the section. You have also answered none of the questions regarding ownership or dedicated acreage. We are therefore returning the Notice of Intention to Drill and Acreage Dedication Plat so that the above amendments may be made.

Yours very truly

ECA:ks

Germany-Willing Company
Box 108
Harrington, Delaware

Gentlemen:

We have received two copies of Federal Notice of Intent, one
of which, along with Form O-126 covering your #1 Well, is
well located in the Big Bend National Monument.

You have not indicated on the Notice of Intent that you
want the well and casing program will be in production
at the time. Therefore, prior to completion of this well
in any formation please submit for approval a well casing
casing program.

We also note that the well apparently is located on a non-Indian
location because of irregularity in the Public Land survey.
You have also not indicated which half-section would be
dedicated in the event of future gas production on your well.
Somehow is contained in any of the above in the section.
You have also answered none of the questions regarding ownership
or dedicated reserves. We are therefore returning the Notice of
Intent to you with the above questions. Please advise the above
amendments may be made.

Very truly yours,

Director of Conservation
