 Nickles #1M O-11-31N-13W

Gentlemen:

This office has not received a 1981 deliverability test report for the Nickles #1.

According to the Rules and Regulations of the Oil Conservation Division of the State of New Mexico, both wells must be tested and test reports filed within ninety days of the date the infill well first delivers.

This well must be scheduled immediately for test, and test report filed, or both wells will be shut in.

If you have any questions please call this office.

Yours truly,
