(State or Territory)

The elevation of the derrick floor above sea level is 5902 ft.**DETAILS OF WORK**

(State names of and expected depths to objective sands; show sizes, weights, and lengths of proposed casings; indicate mudding jobs, cementing points, and all other important proposed work)

It is intended to plug and abandon this well in the following manner:

1. Cement plug across pay section (2061'-2155')
2. 100' cement plug across top of cut off 6-5/8" casing.
3. 100' cement plug across top of Point Lookout formation (Top at 418').
4. 50' cement plug across bottom of surface casing.
5. 5 sack cement plug at surface with 4" marker.

I understand that this plan of work must receive approval in writing by the Geological Survey before operations may be commenced.
