San Juan County, New Mexico

Dear Pete:

Your notice of shut-in of the subject well for failure to obtain administrative approval for a non-standard gas proration unit was received by this office on January 17, 1958.

In accordance with Rule #128, we hereby request approval of this non-standard unit. Copies of registered letters to offset operators requesting their approval, together with receipts for these registered letters, are enclosed.

It is noted that Form C-128 dated May 31, 1957 is in error in that 305 acres was listed as the dedicated acreage. The Government Land Office survey indicates a total of 315.83 acres actually contributable to this well. Three copies of corrected Form C-128 have been submitted to the New Mexico Oil Conservation Commission District Office III at Aztec, New Mexico.

Yours very truly,

Gentlemen:

Subject well has been completed as a gas well in the Blanco Mesaverde Field. The North half of Section 7 has been dedicated to this location, which consists of 315.83 acres and results in a non-standard gas proration unit.

In accordance with New Mexico Oil Conservation Commission rules and regulations we request your approval, as an offset operator, for this non-standard unit. Your early acknowledgment in the form of a letter of approval to the New Mexico Oil Conservation Commission, P. O. Box 871, Santa Fe, New Mexico, attention Mr. A. L. Porter, with copy to this office, would be greatly appreciated.

Yours very truly,
