

Adopted
1-1-65

NEW MEXICO OIL CONSERVATION COMMISSION
PACKER SETTING REPORT

I, Charles M. Heard, being of lawful age and having full
Name of party making report

knowledge of the facts hereinbelow set out do state:

That I am employed by Union Texas Petroleum in the capacity of
District Superintendent, that on March 26, 1965

I personally supervised the setting of a Baker Model "D" production packer
Make & type of packer
in Union Texas Petroleum, Culpepper-Martin N-6-31-12
Operator of well *Lease name*

Well no. 4 located in the Basin Dakota-Blanco Mesa Verde field,
San Juan county, state of New Mexico, at a subsurface depth of

4850 feet, said depth measurement having been furnished me by
Lane Wells Company

That the purpose of setting this packer was to effect a seal in the annular space between two strings of pipe where the packer was set, and to prevent the entry into the bore of this well, of fluids produced from a stratum below the packer, and fluids produced from a stratum above the packer; that this packer was properly set and that it effected a complete and satisfactory seal off the annular space between the two strings of pipe, and that the packer was set at it prevented the entry of fluids from the stratum below the packer into the bore of the well.
