New Mexico Oil Conservation Commission  
P. O. Box 871  
Santa Fe, New Mexico

Attention: Mr. A. L. Porter, Jr.

Subject: Deliverability - Aztec  
Oil & Gas Company's  
Davis No. 5

Gentlemen:

It is desired to bring to your attention an error on the San Juan Basin Gas Proration Schedule that has been repeated on the February through May, 1958 schedules. The well in question is Aztec Oil & Gas Company's Davis No. 5 in the Blanco Mesaverde Gas Pool with Southern Union Gas Company as the connection. This well is a marginal well but the deliverability has been shown as 196 instead of 169 as reflected by form C-122a filed on September 30, 1957.

The above correction will not affect the allowable on this well but it was thought that you may desire to correct the proration schedule in the future.

Yours very truly,

AZTEC OIL & GAS COMPANY
