|-------------------|----------|-----------|
| Mesa Verde -      | 84 % gas | 100 % oil |
| Pictured Cliffs - | 16 % gas | 0 % oil   |

These percentages are based on historical production from the Mesa Verde and Pictured Cliffs.

Please let me know if you have any questions.

Sincerely,

Used production data from 4/92 – 1/94 because the production after 1/94 was unstable due to water production. The production during this time frame seemed to be the most stable.
