17. Describe Proposed or Completed Operations (Clearly state all pertinent details, and give pertinent dates, including estimated date of starting any proposed work) SEE RULE 1103.

We have changed plans on abandoning the Mesaverde formation and completing the Pictured Cliffs formation (see Sundry Notice dated 9-23-80). We now plan on repairing the Mesaverde formation in the above mentioned well as follows:

- 1) Release packer and trip out of hole with 2-3/8" tubing.
- 2) Set drillable bridge plug inside 4-1/2" casing at approximately 4560'.
- 3) Set a drillable cement retainer inside 4-1/2" casing at approximately 4215'.
- 4) Squeeze the Cliffhouse Mesaverde perforations (4223'-4540') with 200 sacks of thixotropic cement.
- 5) Drill cut retainer, cement, and bridge plug and put onto production.

Verbal approval from USGS via telecon Kadillak (Amoco) to Beecher.
Verbal approval from NMOCC via telecon Kadillak (Amoco) to Chavez.

18. I hereby certify that the information above is true and complete to the best of my knowledge and belief.
