Re: Application for Multiple Completion
Williams No. 1-A
"C" Section 24, T31N, R13W
San Juan County, New Mexico

Dear Sir:

Consolidated Oil & Gas, Inc., hereby makes application for multiple completion of the above referenced well and respectfully requests your approval of said application. Our initial intentions were to singly complete this well in the Mesaverde and complete in the Dakota at a later date, should it be needed as a replacement for the Williams No. 1 or should 160 acre proration units be granted for the Dakota. However, careful economic and engineering evaluation of this approach has deemed it impractical and Consolidated has elected to dually complete this well at this time. As seen on the attached form C-102, we propose to jointly dedicate the 320 acres in this Dakota proration unit to both the Williams Well No. 1 and Well No. 1-A. All offset operators have been notified of this application for multiple completion by certified mail.

Your prompt attention and approval of this application will be greatly appreciated. Should there be any questions regarding this matter, please contact me at the above address or phone (303) 861-5252.

Very truly yours,

CONSOLIDATED OIL & GAS, INC.
