FARGHINGTON, M. M.

(NOTE: Report results of multiple completion or zone change on Form 9-330.)

OIL CON. CORR.  
DIST. 2

17. DESCRIBE PROPOSED OR COMPLETED OPERATIONS (Clearly state all pertinent details, and give pertinent dates, including estimated date of starting any proposed work. If well is directionally drilled, give subsurface locations and measured and true vertical depths for all markers and zones pertinent to this work.)\*

Southland Royalty Company proposes to complete the following work on the subject well:

- 1) Run base temperature log.
- 2) Pump 30 bbls water down 2-7/8" casing.
- 3) Run temperature log to determine location of water pumped in well.

This will be done to determine if we have a mechanical problem such as split casing or if we have a non-commercial formation. Future work will be determined from this survey and every attempt will be made to complete this work within 60 days.
