RE: Approval of non-standard
proration unit

Dear Sir:

On June 8, 1979 Southland Royalty Company requested a non-standard proration unit for the Pictured Cliffs portion of the Reese Mesa #2A. The well is located in the W/2 of Section 11, T32N, R8W, San Juan County, New Mexico containing 200.91 acres. The non-standard unit was caused by U.S.G.S. corrections in the survey.

All offset operators were provided with a copy by certified mail of this application.

Yours truly,

Curtis C. Parsons
District Engineer
