17. DESCRIBE PROPOSED OR COMPLETED OPERATIONS (Clearly state all pertinent details, and give pertinent dates, including estimated date of starting any proposed work. If well is directionally drilled, give subsurface locations and measured and true vertical depths for all markers and zones pertinent to this work.)*

In order to permanently repair the casing failure in this well, it is intended to set a drillable bridge plug above the perforations, cut off the casing above top of cement, replace the bad joints of casing and tie back into the casing stub with a Bowen Casing Patch. Cement new pipe back to the surface. Following casing repair, the bridge plug will be drilled out and the well returned to production.

Subsurface Safety Valve: Manu. and Type		Set @ Ft.
