Re: Wilmer Canyon #2
C-25-32N-8W

Dear Curtis:

This letter is to verify our telephone conversation of yesterday about the subject well. The well is completed in the Fruitland and Pictured Cliffs formations. These formations are commingled in the well bore and therefore, require a downhole commingling order or a pool redefinition in order to continue commingled production.

If we can be of any help in this matter, please feel free to call.

Yours truly,

Frank T. Chavez
District Supervisor
