(NOTE: Report results of multiple completion on Well Completion or Recompletion Report and Log form.)

17. DESCRIBE PROPOSED OR COMPLETED OPERATIONS (Clearly state all pertinent details, and give pertinent dates, including estimated date of starting any proposed work. If well is directionally drilled, give subsurface locations and measured and true vertical depths for all markers and zones pertinent to this work.)*

We were planning recompletion to the Frt Coal and recieved approval for non-standard location. This is to cancel our plans to recomplete into the Frt Coal at this time.

Attention: Ken White
Regulatory Permit Coordinator

Administrative Order NSL-2644

Dear Mr. White:

Reference is made to your application of February 27, 1989 for a non-standard coal gas well location for your Johnston Federal Well No. 16 located 820 feet from the North line and 1040 feet from the West line (Unit D) of Section 33, Township 31 North, Range 9 West, NMPM, Basin Fruitland Coal (Gas) Pool, San Juan County, New Mexico. The W/2 of said Section 33 shall be dedicated to the well forming a standard 320-acre gas spacing and proration unit.

By the authority granted me under the provisions of Rule 8 of the Special Rules and Regulations for the Basin-Fruitland Coal (Gas) Pool as promulgated by Division Order No. R-8768, the above-described unorthodox coal gas well location is hereby approved.

Sincerely,

for William J. LeMay
Director
