Amoco plans to test the injectivity of the Cahn Gas Com No. 3 for a period of not greater than 120 days. Approval for the injection was granted and will be performed in accordance with Order Number R-5780. However, verbal approval was given to monitor the bradenhead pressure of the offset wells in lieu of cementing across the Ojo Alamo by Al Kendrick of the NMOCD on March 9, 1979. Injection can begin as early as June 2, 1982.
