MOI Payne #2, K-21-32N-10W (Tank and Production Unit pit)

Dear Susan:

Field inspections conducted on June 30, 1993 by Ernie Busch revealed that the above mentioned pits have been cleaned out or replaced with an above grade fiberglass tank as per requested. The pits are now in compliance and no longer require C-134 variances.

If you have any questions please feel free to call this office.
