RE: Illegal Pits in Northwestern New Mexico
Taliaferro #6, A-30-31N-12W (Separator/Tank Drain Pit)

To Whom It May Concern:

New Mexico Oil Conservation Order R-8952 (for the protection of migratory birds) became effective June 15, 1989 and states that all pits and open top tanks more than 16' in diameter shall be screened, netted or covered. Field inspections on May 3, 1993 revealed that the above mentioned pit requires compliance.

Exceptions to the order may be requested for pits which do not generally contain hydrocarbons, by filing Form C-134. No requests for exceptions have been received in this office for this pit.

You are hereby directed to submit an exception to this office by June 1, 1993. If you have any questions please feel free to call this office. A C-134 has been enclosed for your convenience.

Sincerely,

Dianna K. Fairhurst

Dianna K. Fairhurst
Deputy Oil & Gas Inspector
