13. Describe Proposed or Completed Operations (Clearly state all pertinent details, and give pertinent dates, including estimated date of starting any proposed work. If well is directionally drilled, give subsurface locations and measured and true vertical depths for all markers and zones pertinent to this work.)\*

We plan to move a rig onto this location once road conditions allow us to move without tearing up roadways and equipment. We anticipate moving during the second or third week in March 2001. We will condition the hole with drilling mud, remove any remaining damaged casing and replace it with new 4-1/2" casing. We will then remove a bridge plug set at 5,731', treat the Mesa Verde with acid and nitrogen and clean the well and place it back on line. We anticipate this work taking about one week to complete.
