17. DESCRIBE PROPOSED OR COMPLETED OPERATIONS (Clearly state all pertinent details, and give pertinent dates, including estimated date of starting any proposed work. If well is directionally drilled, give subsurface locations and measured and true vertical depths for all markers and zones pertinent to this work.)*

There is still a high probability of oil and gas under this lease. We intend to explore the deeper formations when finances permit. This well is cased to 1600' and is cemented back to the surface. There can be no harm resulting from the continued temporary abandonment of this well. It will save constructing a new location when deeper exploration is attempted.

Lease held by production

- Continue to report this well as TH on the Monthly Report of Operations.
