OIL CON. DIV
DIST. 3

Administrative Order NSL-1509-A

Dear Mr. Hawkins:

Reference is made to your application dated March 1993, for a non-standard Blanco Mesaverde gas well location for your existing ~~Mudge Com "B" Well No. 2-E~~ which was drilled in 1982 and completed in the Basin Dakota Pool at a previously approved unorthodox gas well location 1350 feet from the South line and 685 feet from the West line (Unit L) of Section ~~31, Township 31 North, Range 11 West~~; NMPM, San Juan County, New Mexico (Division Administrative Order NSL-1509, dated April 21, 1982).

It is my understanding that the Basin Dakota zone is to be downhole commingled with the Blanco Mesaverde Pool, and pursuant to the Special Rules and Regulations for the Blanco Mesaverde Pool, as promulgated by Division Order No. R-8170, as amended, said location is considered to be unorthodox.

It is also our understanding that the proposed unorthodox Blanco Mesaverde gas well is to be a replacement infill gas well in the SW/4 of said Section 31 for the recently plugged and abandoned ~~Mudge Com "B" Well No. 2-E~~ located in Unit N. The existing 320-acre standard gas spacing and proration unit (GPU) for the Blanco Mesaverde Pool, comprising the W/2 of said Section 31 is presently dedicated to the Amoco Neil "LS" Well No. 5-A located at a standard gas well location in Unit C of said Section 31.

By the authority granted me under the provisions of Rule 2(d) of said Order R-8170, as amended, the above-described unorthodox gas well location is hereby approved.

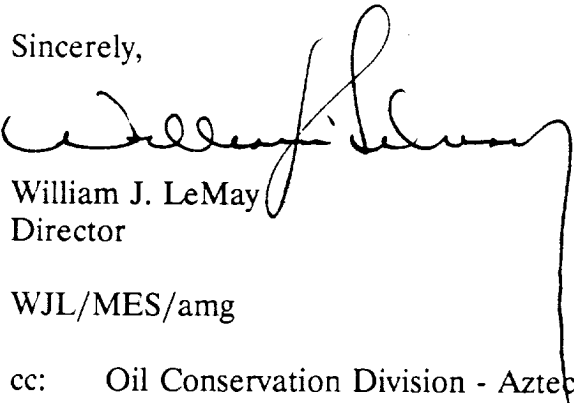

Further, you are hereby authorized to simultaneously dedicated Blanco Mesaverde gas production from the existing Neil "LS" Well No. 5-A with the Mudge Com "B" Well No. 2-E.

Administrative Order NSL-1509-A
Amoco Production Company
March 30, 1993
Page 2

Furthermore, you are hereby permitted to produce the allowable assigned the subject GPU from both of said wells in any proportion.

The previous Division Administrative Order NSL-1509 shall remain in full force and effect until further notice and Amoco shall comply with all requirements pertaining to the downhole commingling of both the Blanco Mesaverde and Basin Dakota intervals.

Sincerely,

William J. LeMay
Director
