17. DESCRIBE PROPOSED OR COMPLETED OPERATIONS (Clearly state all pertinent details, and give pertinent dates, including estimated date of starting any proposed work. If well is directionally drilled, give subsurface locations and measured and true vertical depths for all markers and zones pertinent to this work.)\*

7-6-87 We request approval to plug and abandon this well. The approved TA status expired May 21, 1987. This well continues to be uneconomic to produce and we have no reason to continue the TA status. The well was TA'd as follows:

6-20-87 Ran tbg to 970' pumped 25 sx cmt. Pulled tbg to 750'. Displaced hole with conditioned non-corrosive fluid to surface. Pulled tbg and shut in at surface.

To plug and abandon we will run in hole tag TD and check bottom plug. If plug has slipped, we will re install new plug with 25 sx cmt. Otherwise, we will install surface plug with 25 sx cmt spotted by tbg., at least 100' from surface. Restore location.

18. I hereby certify that the foregoing is true and correct
