Re: Sovereign 32-6 #1, E-9-32N-6W

Dear Sirs:

The referenced well needs to have a new case docketed for the directional drilling, nonstandard location, and nonstandard proration unit (for the Pictured Cliffs), at the new location, therefore we are returning the Application for Permit to Drill for you to outline the directional drilling in the proposed casing and cement program.

The APD cannot be approved without a division order allowing the direction drilling at a specific location. The bond must show this exact location also.

If you have any questions please call this office.

Yours truly,

A handwritten signature in cursive script that reads "Jeff A. Edmister".
