Tenneco Oil Exploration and Production P. O. Box 3249 Englewood, Colorado 80155

Attention: John Orr

Administrative Order NSL-1842

Gentlemen:

Reference is made to your application for a non-standard location for your Newberry A Well No. 2E to be located 560 feet from the North line and 1720 feet from the West line of Section 9, Township 31 North, Range 12 West, (W/2 of Sec. 9), NMPM, Basin Dakota Pool, San Juan County, New Mexico.

By authority granted me under the provisions of Rule 104 FI and Special Rule 3 of Order No. R-1670-C, the above-described unorthodox location is hereby approved.

Sincerely,

JOE D. RAMEY,

Director

JDR/RL\$/dr

> RE: Application for Unorthodox Location Newberry A2E, 560' FNL, 1720' FWL Sec. 9, T31N, R12W San Juan County, New Mexico

Gentlemen:

Attached in duplicate (to each office) are a well location plat (C-102) with an ownership plat for the above referenced well.

Tenneco has staked the referenced well in an unorthodox location. For geological reasons the most desirable location is in the NENW of section 9. El Paso Natural Gas Company has a well at 885' FNL and 1800' FWL. The topography slopes steeply to the west. At the onsite inspection an archaeological site (SJC-1078) was discovered and it is recommended that we avoid it.

A copy of this application is being submitted to all offset operators by certified mail with a request that they furnish your Santa Fe office with a waiver of objection.

Page 2 Application for Unorthodox Location May 30, 1984

Pursuant to the authority of Rule 104-F we respectfully request your approval of an exemption to the standard well location requirements.

Yours pary truly,

John Orr

Regulatory Analyst II
