13. Describe Proposed or Completed Operations (Clearly state all pertinent details, and give pertinent dates, including estimated date of starting any proposed work. If well is directionally drilled, give subsurface locations and measured and true vertical depths for all markers and zones pertinent to this work.)*

Workover on this well was completed on 9/10/97. Gas capabilities has significantly increased. During completion of this well we experienced problems and could not get to TD. The tight spot we could not work through was at 3651' KB. We left bottom part of formation plugged off with fines and shale. 7" 23# casing is set at 3350' KB with open hole from 3350' to 3769' KB. Ran a 5 1/2" 17#, K-55, LT&C pre-perforated liner. Top of liner hanger is at 3289' and landed at 3599' KB. Ran 2 7/8" tubing in hole and landed at 3556' KB.

Put well back on production 09-12-97.

I hereby certify that the foregoing is true and correct
