Cleanout of well was planned for 1994. Sundry Notice was submitted 6-27-94. After further review of pipeline capacity and increased production from Gardner 3-C and 6-C, we decided not to perform the cleanouts in 1994, but rather wait until pipeline loop was completed to handle additional volume of gas projected from this cleanout. Pipeline loop should be completed in late May 1995.
