13. Describe Proposed or Completed Operation (clearly state all pertinent details, including estimated starting date of any proposed work and approximated duration thereof. If the proposal is to deepen directionally or recomplete horizontally, give subsurface locations and measured and true vertical depths of all pertinent markers and zones. Attach the Bond under which the work will be performed or provide the Bond No. on file with BLM/BIA. Required subsequent reports shall be filed within 30 days following completion of the involved operations. If the operation results in a multiple completion or recompletion in a new interval, a Form 3160-4 shall be filed once testing has been completed. Final Abandonment Notices shall be filed only after all requirements, including reclamation, have been completed, and the operator has determined that the final site is ready for final inspection.)

While taking a survey @ 6198', the drill pipe became stuck. While attempting to jar the fish free, the drill string parted. Due to the inability to get over fish #2, the decision was made to sidetrack the hole. Dan Rabinowitz (BLM) was notified and verbal approval was given. A 220 sx cmt plug, followed by a 400 sx cmt plug were used to plug back to 3637'. The cmt plug was dressed off to 3816'. Directional tools were then run and kick-off was obtained at approximately 4059'.
