May 4, 1977

William G. Waldeck Attorney at Law P. O. Box 2188 Grand Junction, Colorado 31501

Administrative Order MSL-844

Gentlemen:

Reference is made to Woosley Oil Company's application for approval of a non-standard location for their Mavajo "AA" Well No. 25 to be located 700 feet from the North line and 2450 feet from the East line of Section 15, Township 32 North, Range 17 West, NMPM, North Many Rocks Pool, San Juan County, New Mexico.

Since there are no offsetting operators, the waiting period prescribed by Rule 104 P may be dispensed with in this instance.

By authority granted me under the provisions of Rule 104 F of the Commission Rules and Regulations, the above-described unorthodox location is hereby approved.

Very truly yours,

JOE D. RAMEY Secretary-Director

JDR/JEK/jr

Re: Application For Administrative Approval Of Unorthodox Location For Navajo AA No. 26 Well

Gentlemen:

James P. Woosley and the undersigned, William G. Waldeck (referred to hereinafter as the "Applicants") are the owners of all of the operating and working rights in and under that certain Oil and Gas Lease described as Navajo Tribal Oil and Gas Lease Contract No. 14-20-603-585 effective June 15, 1954, covering the following described lands located in San Juan County, New Mexico:

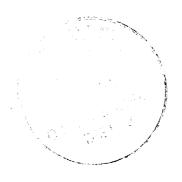

Township 32 North, Range 17 West:

Section	7:	Fractional
Section	8:	Fractional
Section	17:	All
Section	18:	A11
Section	19:	All
Section	20:	All

The north Many Rocks field is situated on the above lease and is operated under the name and style of "Woosley Oil Company."

Efforts have been made by Applicants and their predecessors in interest to water flood the Many Rocks field but such efforts have proved unsuccessful. For this reason, resort has, of necessity, been had to drilling additional inside wells in order to increase the recovery of oil from the reservoir.

Pursuant to Rule 104D of the Rules and Regulations of the Oil Conservation Commission of the State of New Mexico, Applicants respectfully request approval of an unorthodox location for the drilling of a well to be numbered "Navajo AA No. 26." Attached

to this Application and made a part thereof is a plat showing the location of the proposed well, a sketch of the terrain in the area of the well and also showing the nearest producer. The reason necessitating the requested unorthodox location is that the topography and terrain is such that it would be economically impractical to drill the subject well at an orthodox location. The well is to be located on a flat bench which lies between a wash the bottom of which is to the south of the said bench and by steep cliffs and rocky cliffs to the north. To the east of the proposed location, the flat bench narrows so that a location could not be feasibly made thereon. On occasions, freshets run through the wash bottom making it impractical to have a location situated in the wash.

Due to the conditions of terrain and topography mentioned above, the Applicatns respectfully request that administrative approval of the unorthodox location requested herein be granted. This Application is made in triplicate in accordance with the applicable rules.

Yours very truly,

William & Walderk

William G. Waldeck
