13. Describe Proposed or Completed Operation (clearly state all pertinent details, including estimated starting date of any proposed work and approximate duration thereof. If the proposal is to deepen directionally or recompleat horizontally, give subsurface locations and measured and true vertical depths of all pertinent markers and zones. Attach the Bond under which the work will be performed or provide the Bond No. on file with BLM/BIA. Required subsequent reports shall be filed within 30 days following completion of the involved operations. If the operation results in a multiple completion or recompleat in a new interval, a Form 3160-4 shall be filed once testing has been completed. Final Abandonment Notices shall be filed only after all requirements, including reclamation, have been completed, and the operator has determined that the site is ready for final inspection.)

Texakoma proposes to re-enter the USA #2 by inspecting the rods, pump, and tubing to resume rod-pumping the well. We will install two 500-bbl steel tanks for the water and reconnect the gas line to an existing Williams Field Service sales meter. We will also install a transfer pump and approximately 4000' of 3" poly SDR-7 water line to pump the water to a holding pond owned by San Juan Coal Company. An application has been submitted to the Office of the State Engineer to amend an existing permit allowing Texakoma to send our water to San Juan Coal Company. We anticipate commencing operations during May, 2002.

14. I hereby certify that the foregoing is true and correct
