13. Describe Proposed or Completed Operations (Clearly state all pertinent details, and give pertinent dates, including estimated date of starting any proposed work. If well is directionally drilled, give subsurface locations and measured and true vertical depths for all markers and zones pertinent to this work.)*

Merrion requests approval to modify our casing and hole program for the subject well. We propose to drill 8-3/4" hole and set 7" surface casing with 105 sx (124cuft) 'B' cement. Will drill 6-1/4" to TD and will set 4-1/2" 10.5# J55 preperforated uncemented production liner. All depths remain the same. No other changes are contemplated.

I have attached a wellbore schematic illustrating the proposed changes.
