Mr. Al Greer  
New Mexico Oil Conservation Commission  
Aztec, New Mexico

Dear Mr. Greer:

Enclosed please find Form C-101, Notice of Intention to Drill, in triplicate, accompanied with three engineering plats signed by a registered engineer, showing the exact location. I was not too sure as to the required number of these engineering plats which you desire. As a consequence have submitted three. I would very much appreciate if you would return all those that are not deemed necessary.

The only difficulty I have found with this original form was in that particular blank which was allowed for State lease number and assignment number. As you may note, we are going to drill in the SE/4 of the section, and request that the S/2 of the section (320 acres) be allotted to this well. The South half is actually broken up into four individual lease numbers:

Lease No. E-5152 covers the N/2 SW/4, the SE/4 SW/4 and the S/2 SW/4.

Lease No. E-453, Assignment No. 7, covers the SW/4 of the SW/4.

Lease No. E-3157, Assignment No. 1, covers the NW/4 of the SE/4.

Lease No. E-4700, Assignment No. 1, covers the NE/4 of the SE/4.

Total acreage in the S/2 of the section 320 acres.

We hope that this original attempt to comply with Form C-101 meets with your approval.

Very truly yours,

PUBCO DEVELOPMENT, INC.

FRANK D. GORHAM, JR.  
VICE-PRESIDENT
