Mr. R. E. Albers,
Abernathy, Texas

Dear Mr. Albers,

I am filing plugging papers on all of our wells that have not been properly filed in the past and I find that the well we drilled on your place south of Hospah is still carried as an active well even though it has been converted to a water well for your use.

The Log and the plugging and the water well casing which was set has long ago been reported to the State but our form C-103 has never been properly filed. In order to keep this well open as a water well the enclosed papers will have to be signed and returned to the Oil Conservation Commission Office, Aztec, New Mexico.

Since we have been asked to plug the well on to the top or to submit your acceptance as a water well, we will appreciate your promptness in returning this to the office at Aztec. Our plugging bond is still in effect and until this report is filed in Aztec, our bond is still active on the well.

I called the Store at Boragas Pass and Mr. Smouse thought you were probably at Abernathy, otherwise I would have come out and got your signature. I will ask that you please use Air Mail in returning it to the Aztec Office as The State is pressing us and out bonding company to plug the well on to the top. The Enclosed form C-103 will put everything in order to hold it as a water well. You may keep one copy for your files. Will you please advise me also when it has been mailed.

Very truly yours,

Lloyd B. Taylor
