

EDWARD SARGENT

*Sheep and Gattle*

CHAMA, NEW MEXICO

November 2nd, 1959.

New Mexico Oil Conservation Commission,  
Aztec, New Mexico.

Attention Mr. Kendrick:

This is to advise you that the locations of Sargent #1 and Sargent #2 wells, drilled by Rhine Petroleum Industries of Utah, have been cleared of debris and smoothed off. It is the desire of Edward Sargent Estate to leave the two slush pits open as we are endeavoring to make earth water tanks out of them. Should we not be successful in this undertaking, the pits will then be covered and refilled at some later date.

The above is for your file information in connection with the plugging bonds of Rhine Petroleum Industries of Utah.

Yours truly,

ESTATE OF EDWARD SARGENT,  
Estelle B. Sargent, Executrix,

AKB-h

By

W. L. Kell  
Manager.
