Re: Request for Administrative
Approval of an Unorthodox
Gas Well Location

Attention: Mr. A. L. Porter

Gentlemen:

Northwest Production Corporation hereby requests administrative approval of an unorthodox gas well location in the South Blanco Pictured Cliffs Gas Pool, as provided for by Rule 4, Order No. R-565-C.

Due to extreme topographic conditions, location for a Pictured Cliffs gas test has been staked 205' FSL and 1850' FEL in the SW/4 SE/4 of Section 29, T26N, R4W, Rio Arriba County, New Mexico. The location has been designated "C" well No. 17-29.

The attached plat indicates that Northwest Production Corporation owns the mineral lease covering Section 32, T26N, R4W, the only acreage located within 790' of the proposed well bore. For this reason no other operator has been notified of this request.

Very truly yours,

NORTHWEST PRODUCTION CORPORATION
