DETAILS OF WORK

(State names of and expected depths to objective sands; show sizes, weights, and lengths of proposed casings; indicate mudding jobs, cementing points, and all other important proposed work)

Authority is requested to change plans on Sundry Notices and Reports on Well submitted to you October 7, 1953. It is now desired to make an effort to complete the well to approximately 800 feet, or to the first oil zone which was encountered in the L. G. Stearns No. 1 Navajo from a sand lens in the Allison member of the Mesaverde formation which showing was had from 795 to 798.

I understand that this plan of work must receive approval in writing by the Geological Survey before operations may be commenced.
