DETAILS OF WORK

(State names of and expected depths to objective sands; show sizes, weights, and lengths of proposed casings; indicate mudding jobs, cementing points, and all other important proposed work)

Permission is hereby requested to perform the following operations on this well.

Operator wishes to temporarily abandon well, pull all casing except 30' of surface casing, plug back from 1350' to approx. 540' with heavy mud, and temporarily complete as a water well in a water sand at approx. 540'.

It is intended to later move back on well with rotary tools, and test the Mesaverde section.

(Verbal approval was obtained from Mr. DuPont, U.S.G.S. Farmington, on 9/21/51.)

I understand that this plan of work must receive approval in writing by the Geological Survey before operations may be commenced.
