Mr. Paul B. Palmer
Box 295
Farmington, New Mexico

Re: Paul P. Palmer and Associates
#1 Hutton SWSE Sec. 17-29N-13W

Dear Sir:

Reference is made to the above captioned well operated by you and located in San Juan County, New Mexico. The above captioned well is covered by a one well bond executed by the Western Casualty and Surety Company of Kansas.

According to information available to this Commission, the well was drilled to a total depth of 1,086'. According to a Form C-102, executed December 19, 1952, approval was granted by this office for you to plug the well. Our Antec representative, Mr. Emery C. Arnold, has advised us that as yet you have not done any of the work as proposed on your Form C-102.

Please take immediate action to plug the well properly and upon completion of the work file a Form C-103, outlining the work done in plugging the well and also a Form C-105, Well Log. In the event satisfactory steps are not undertaken immediately, it will be necessary for the Commission to hold an open hearing, citing both you and the Insurance Company to Show Cause why the well should not be properly plugged.
