Re: Palmer Associates #1 Hutton  
SW $\frac{1}{4}$ SE $\frac{1}{4}$  Sec. 17-29N-13W

Dear Mr. Palmer:

On May 7, 1954 Mr. Emery C. Arnold wrote to you in regards to the above captioned matter and at that time was kind enough to send us a copy of your letter to our Albuquerque office, which, in turn, has forwarded same to us for attention.

As you know, there is no need or necessity for any hearing before the Oil Conservation Commission in Santa Fe, provided that you comply with their wishes in the handling of this matter to a conclusion without any further undue delay. This is certainly your responsibility and we cannot impress upon you too strongly the necessity for taking care of this matter.

Now, please contact Mr. Arnold and handle this matter to a conclusion and then advise us as to what has been done, so that we will be in a position to retire our file.

Very truly yours,

RITTER GENERAL AG NCY

Milton E. Boslough  
Claim Department
