INSTRUCTIONS

Form C-110

This form shall be completed and filed (as a preliminary) with the District Office of the Oil Conservation Commission covering each unit from which oil or gas is produced. A separate certificate shall be filed for each transporter authorized to transport oil or gas from a unit. After said certificate has been approved by the Oil Conservation Commission, one copy shall be forwarded to the transporter, one copy returned to the producer and two copies retained by the Oil Conservation Commission.

A new certificate shall be filed to cover each change in operating ownership and each change in the transporter, except that in the case of a temporary change in the transporter involving less than the allowable production for one proration period, the operator shall in lieu of filing a new certificate, notify the Oil Conservation Commission District Office, and the transporter authorized by certificate on file with the Commission, by letter of the estimated amount of oil or gas to be moved by the transporter temporarily moving oil or gas from the unit and the name of such temporary transporter and a copy of such notice shall also be furnished such temporary transporter. Such temporary transporter shall not move any more oil or gas than the estimated amount shown in said notice.

This certificate when properly executed and approved by the Oil Conservation Commission shall constitute permit for pipe line connection and authorization to transport oil or gas from the property named therein and shall remain in full force and effect until:

- (a) the certificate is properly changed;
- (b) the certificate is amended;
- (c) the permit is extended or renewed.

If any of the above conditions are not complied with by the transporter, have not been complied with, or if the permit is not properly renewed, explain fully under the heading "OTHER NOTES".

In all cases, the certificate shall be renewed to cover a change in operating ownership or a change in the transporter, or a change in the amount of oil or gas shown under "Estimated Amount of Oil or Gas to be Moved by the Transporter" previously authorized to be transported oil or gas.

A separate permit shall be filed for each pipe line connection authorized by the Oil Conservation Commission.
