DETAILS OF WORK

(State names of and expected depths to objective sands; show sizes, weights, and lengths of proposed casings; indicate mudding jobs, cementing points, and all other important proposed work)

As a result of not obtaining oil or gas in commercial quantities, the Mountain Topical "F" Well No. 1 was temporarily abandoned on October 21, 1959 by pulling tubing and installing valve on well head.

I understand that this plan of work must receive approval in writing by the Geological Survey before operations may be commenced.
