Dear Ms. Alderman:

NMOCD will not consider remedial activities until delineation is completed for 1RP-4857. Please submit a release characterization/delineation for this incident.

Thanks,

Olivia Yu

OCD approval does not relieve the operator of liability should their operations fail to adequately investigate and remediate contamination that may pose a threat to ground water, surface water, human health or the environment. In addition, OCD approval does not relieve the operator of responsibility for compliance with any other federal, state, local laws and/or regulations.
