approved_EOG_NMOCD C-147 Submittal_NEW FINAL-Galaxy Reuse Water Facility and Containment Pit (002).pdf

Dear Mr. Kinder:

NMOCD approval is given for the proposed EOG Resources Galaxy Recycling Facility and Containment. Please be advised that this email message serves as documentation for approval. A hard copy will not be sent. Please see the attachments for your records: 1) the letter of approval indicates the specific variances approved and 2) signed C-147 application with the permit number issued for the Galaxy Recycling Facility and Recycling Containment.

Please submit to NMOCD the final assessment of the location and placement of either the pump or sump decision for the recycling containment as soon as available.

The Recycling Facility and Containment is issued an identifier **1RF-25**. Monthly usage reports on the form C-148 are expected electronically to NMOCD- District I office. NMOCD also may ask for periodic updates on containment conditions and inspection logs. For future communications, please remember to include the identifier **1RF-25** for tracking and record-keeping purposes.

Thanks,

Olivia Yu

OCD approval does not relieve the operator of liability should their operations fail to adequately investigate and remediate contamination that may pose a threat to ground water, surface water, human health or the environment. In addition, OCD approval does not relieve the operator of responsibility for compliance with any other federal, state, local laws and/or regulations.

Dear Mr. Kinder:

Please resubmit GPS coordinates in degree or decimal units (NAD 83) for the proposed Galaxy Recycling Facility and Containment. The provided UTM units do not correspond with the PLSS units. Resubmittal of the C-147 application is not required. The necessary revisions will be made.

Thanks,
