---

Amber, there is nothing in our inherited well files or on the OCD website to indicate who was responsible for this decades old release.

In light of this, we have contracted Talon, LPE to obtain boring samples during the first or second week of August '17.

Talon will give 48 hours notification when an actual day is set.

**Subject:** RE: NVANU's Initial C-141's for #1, #82, 5B #2, #73 OCD letter

Good Afternoon,

I am just following up on the below e-mail as I have not received anything regarding the #73. What is the status of the documentation of clear separation between Limerock and Mobil infrastructure?

Thank you,

**Amber Groves**

Here is the documents for the #82 & 5 #2.

I will have to go back through emails for correspondence on the #73

**Subject:** RE: NVANU's Initial C-141's for #1, #82, 5B #2, #73 OCD letter

Good Morning,

This e-mail is a follow up to Dr. Oberding's e-mail last spring regarding the #73 OCD letter. I do not seem to have the clear separation between Limerock and alleged Mobil infrastructure that was requested in this e-mail. If this was sent in to NMOCD, please provide a copy to me for my files. Also, as ExxonMobil is the lessee on record and Limerock the operator for ExxonMobil, can you please clarify the reason the lessee on record is responsible versus the operator for ExxonMobil?

Also, my records reflect that we are still awaiting the closure reports for the NVANU #82 and the NVANU 5B #2. I have that backfilling was approved on the 82 in July of last year and the work plan for the 5B #2 approved in May of last year. When can we expect those submittals?

Thank you,

**Amber Groves**

Aloha all,

Thank you for sending in these 141s. Mr. Keyes will provide the RPs in a forthcoming email.  
Regarding the NVANU #73- The OCD requires definitive evidence that the contamination is not associated with Limerock operations on that site (verbal testimony is not acceptable).  
A clear separation between Limerock and alleged Mobil infrastructure must be shown.  
Upon receipt of this evidence the OCD will review the issue.

Mahalo

一期一会

OCD approval does not relieve the operator of liability should their operations fail to adequately investigate and remediate contamination that may pose a threat to ground water, surface water, human health or the environment. In addition, OCD approval does not relieve the operator of responsibility for compliance with any other federal, state, local laws and/or regulations.

**Subject:** NVANU's Initial C-141's for #1, #82, 5B #2, #73 OCD letter

Good Afternoon All,

Attached are the initial C-141's for the Lime Rock Resources North Vacuum Abo North Unit (NVANU) #1 Battery, #82 Battery and the 5B #2 flow line release We have drilled these three sites already and are awaiting analytical results. We will then generate the work plans.

Attached also is a letter from Lime Rock regarding NVANU #73.

Respectfully submitted,

**Kimberly M. Wilson**
