Legals: NW1/4 Sec. 22, T19S, R38E

NMOCD approves of the  
proposed delineation and  
remediation plan for 1RP-4926.  
See email correspondence for  
stipulations.

This amendment to the Remediation Work Plan for the above referenced site dated 11Jan18, is submitted in response to New Mexico Oil Conservation Division's requirement for additional sampling. The amendment is to paragraph one of the **Remediation Proposal** and is amended to change the number of floor samples and confirmation samples of the excavated area.

Proposed amendment is for eight soil samples to be collected from the floor of the excavation instead of six. Also, for four confirmation soil samples to be collected one foot below the floor of the excavation. A forty-eight hour notice will be provided to NM OCD prior to start of the excavation process.

**Proposed Sample Points**

Sample Points

**HollyFrontier Transportation Hobbs Truck Station # 529**  
**Proposed Sample Points**

- As proposed in the work plan, 8 sample points from the floor, 1 from each side wall, 1 from each end will be selected as noted above.
- Four confirmation samples below each floor sample will be obtained and analyzed for the same contaminants. GPS points will be obtained at the time of sampling and provided with lab analysis.
- Four confirmation soil samples will be collected one foot below the excavation.
- A forty-eight hour notice will be provided to Olivia Yu prior to start of the excavation process.
- The dimension of the containment area is 25' wide X 68' long.
