Subject: RE: Centurion Pipeline LP - Crossroads AWC Pipeline - Delineation Workplan
Date: Thursday, February 1, 2018 7:52:00 AM
Attachments: approved_1RP4756_Delineation Workplan Crossroads AWC Pipeline.pdf

Mr. Brunson:

NMOCD approves of the proposed remediation for the area South of the fence line for 1RP-4756 with a clarification. Please establish 2 additional confirmation sample locations: 1) at the border of the area represented by SP3/SP4 & SP5/SP6; and 2) at the border between SP6/SP10 & SP11. Laboratory analyses of confirmation samples for BTEX, TPH extended, and chlorides.

The proposed additional delineation for the area North of the fence line after remedial activities of the southern portion is also approved.

Please confirm or inform for clarification.

Thanks,

Olivia Yu
Environmental Specialist
NMOCD, District I

OCD approval does not relieve the operator of liability should their operations fail to adequately investigate and remediate contamination that may pose a threat to ground water, surface water, human health or the environment. In addition, OCD approval does not relieve the operator of responsibility for compliance with any other federal, state, local laws and/or regulations.

Subject: Centurion Pipeline LP - Crossroads AWC Pipeline - Delineation Workplan

Olivia,

I have attached the workplan that we discussed this morning with the additions that was agreed upon. As discussed, Centurion wants to take care of the fee (south) portion first, then we will further

delineate the north right-of-way portion and submit a workplan for that portion and then complete it.

I appreciate your taking the time to meet about this and appreciate your quick approval, so we can continue remediating this site.

If you have any questions, please let me know.

Thanks, Cliff
