approved_Jal #3 - Remediation Summary and Closure Request - BGTs and 1RP-4408_Consolidated.pdf

Mr. Lowry:

The available information indicates **OPERATOR** has met the requirements of 19.15.17 NMAC and no further corrective action is required. NMOCD considers Jal #3 - Field Scrubber Dump Tanks closed.

The available information indicates **OPERATOR** has met the requirements of 19.15.29 NMAC and no further corrective action is required. NMOCD considers **1RP-4408** closed.

This determination by the Oil Conservation Division does not relieve Operator of responsibility should future information indicate a threat to ground water, surface water, human health, or the environment. Furthermore, it does not relieve Operator of responsibility for compliance with any federal, state, or local laws and/or regulations.

Like approval from NMSLO required for 1RP-4408.

Thanks,

Olivia Yu
Environmental Specialist
NMOCD, District I
Olivia.yu@state.nm.us
575-393-6161 x113

OCD approval does not relieve the operator of liability should their operations fail to adequately investigate and remediate contamination that may pose a threat to ground water, surface water, human health or the environment. In addition, OCD approval does not relieve the operator of responsibility for compliance with any other federal, state, local laws and/or regulations.
