image001.png

Mr. Neel:

Please note, although the depth to groundwater did not alter, there is a USGS water well, 1 mile south of the release location.

NMOCD approves of the delineation completed and proposed remediation plan for 1RP-4594 and 1RP-4795 with one condition:

- Confirmation sidewall samples for the 1 ft. proposed excavation of the area presented by T-1. Laboratory analyses of soil samples for TPH extended and chlorides. Mark confirmation sample locations on a scaled map with GPS coordinates.

Please confirm or inform for clarification.

Thanks,

Olivia Yu
Environmental Specialist
NMOCD, District I
Olivia.yu@state.nm.us
575-393-6161 x113

OCD approval does not relieve the operator of liability should their operations fail to adequately investigate and remediate contamination that may pose a threat to ground water, surface water, human health or the environment. In addition, OCD approval does not relieve the operator of responsibility for compliance with any other federal, state, local laws and/or regulations.
