**Subject:** RE: OXY - Red Tank 28 Federal #4 - Delineation Workplan  
**Date:** Wednesday, August 2, 2017 2:40:00 PM

---

Mr. Brunson:

NMOCD approves of the delineation for 1RP-4658 and proposes a modified remediation plan. At 1 ft. bgs, chloride levels are still above permissible values at SP1, SP2, and SP3.

1. NMOCD proposes excavation to 2 ft. bgs for the areas represented by SP1 – SP3. Sidewall confirmatory soil samples for chloride levels are required.
2. No excavation is necessary for the area represented by SP 4 and SP5.
3. Demarcate depth of excavation for SP1, SP2, and SP3 areas and location of sidewall samples on an appropriately scaled map.

Please confirm.

Thanks,

Olivia Yu  
Environmental Specialist  
NMOCD, District I  
[Olivia.yu@state.nm.us](mailto:Olivia.yu@state.nm.us)

OCD approval does not relieve the operator of liability should their operations fail to adequately investigate and remediate contamination that may pose a threat to ground water, surface water, human health or the environment. In addition, OCD approval does not relieve the operator of responsibility for compliance with any other federal, state, local laws and/or regulations.

Olivia and Shelly,

Please find the attached Delineation Workplan and remediation proposal for the OXY Red Tank 28 Federal #4 (1RP-4658). OXY is requesting that you review this plan and is looking forward to the OCD's and BLM's approval.

If you have any questions, please let me know.

Thanks, Cliff
